Value Creation Process of the HTS Group

A business model to realize value creation of the HTS Group consists of a value chain comprising of task analysis, design for operation, operation and improvement of the customers' supply chain and structure to support it such as collaborative innovation, R&D, human resource development, and VC21 activities, with the HB WAY indicating how the Group should be and a path to take as the source of all values.

Using our strengths of “Ability to accomplish operation,” “Advanced logistics engineering capability,” and “Global network” as key drivers, we strive to reinforce our value chain to sustainably create economic, social, and environmental values to our stakeholders. We will contribute to SDGs through sustainable increase of corporate value.
