Glossary of Terms

Asset-light	A management strategy focused on minimizing asset holdings to streamline finances. This approach offers advantages such as enabling focused investment in core businesses and responding with more flexibility to market dynamics.
AMR	Stands for Autonomous Mobile Robot. These are autonomous mobile collaborative robots used for transporting goods within warehouses. Unlike fixed-route systems, they navigate independently by using sensors and map data to recognize their surroundings. They contribute to improved operational efficiency and help address labor shortages.
CLO	Stands for Chief Logistics Officer. The person ultimately responsible for a company's logistics strategy. This position requires measures aimed at streamlining logistics operations while coordinating operations across the company's entire supply chain.
J-Credit	A government-certified system that issues credits for reducing CO <sub>2</sub> and other emissions through measures such as the introduction of energy saving equipment and the use of renewable energy, as well as for the absorption of CO <sub>2</sub> through proper forest management.
VC activities	Stands for Value Change & Creation. Daily activities implemented to make improvements toward carrying out the LOGISTEED WAY. Employees actively exchange ideas on a variety of themes, with outstanding examples receiving formal recognition, paving the way to embed an improvement-oriented culture through the "visualization of improvement initiatives" and the "fostering of a culture of appreciation."
WCS	Stands for Warehouse Control System. A system designed to centrally manage and control automated warehouse equipment and transport machinery, enabling efficient logistics operations.
WES	Stands for Warehouse Execution System. A system designed to generally manage and control personnel, tools, and equipment, enabling efficient logistics operations.
EcoLogiPortal	A solution used to centrally manage and visualize CO <sub>2</sub> emissions across the supply chain, including Scope 1, 2, 3 emissions, to aid in resolving issues and formulating strategies.
