

Announcement of Website Renewal “Towards Becoming a Leading Global 3PL Company”

LOGISTEED, Ltd. is pleased to announce the renewal of its website. The LOGISTEED Group, in its mid-to-long-term vision "LOGISTEED2030," aims to become a leading global 3PL company. The website serves as an important communication tool to disseminate information to various stakeholders. The previous website had been in use for many years, but with advancements in internet technology and changes in user needs and trends, we have renewed it this time.

■ Overview of the Renewal

1. Purpose

Improving User Experience:

The new website features a more user-friendly navigation system, allowing users to move directly from the current page to lower-level pages. This provides a more comfortable operation and makes information easier to find.

Revising Content Structure:

We have reorganized the pages introducing the solutions and global bases provided by our group, making the breadth of our services clearer and displaying related information.

Enhancing Mobile Compatibility:

To accommodate access from various devices such as smartphones and tablets, we have further strengthened the responsive design, improving usability for a diverse range of users.

Refreshing Visuals:

The key visuals have been refreshed with bright and soft colors. And The font and design are rounded to create a friendly image that will make visitors to the website feel familiar with logistics.
