

## **LOGISTEED Group Holds Expanded Global Business Meeting 2024**

On November 14th and 15th, LOGISTEED group held the Expanded Global Business Meeting 2024 (EGBM2024) at the headquarters, Japan. EGBM is a high-level global meeting held annually since 2010, where the top management of the LOGISTEED Group gathers in Japan from around the world to discuss the overall management strategy of the group. At EGBM2024, we had lively discussions on business and management issues aimed at enhancing corporate value in preparation for re-listing as a global logistics company.

In addition to presentations from each business company, this year's meeting also focused on discussions about business strategies for each area and product under the "One LOGISTEED" initiative, led by the LOGISTEED International Company which was established in April this year. Executives, including directors and executive officers from group companies, as well as local representatives from overseas subsidiaries and site managers, participated from various regions around the world, using online tools as well.

The EGBM meeting

Commemorative Photo

LOGISTEED group aims to become the most preferred global supply chain solution provider and commits to meet expectations by further expanding collaboration domain and realizing innovation.
