Hitachi Transport System Track & Field Club Cooperated with Matsudo city's Autumn Youth Running Class

On November 6, Hitachi Transport System Track and Field Club(HTS T&F Club) had an opportunity to instruct a class titled “*Autumn Youth Running Class—Tips on how to run fast* – by the city's corporate athletics team”, organized by Matsudo City in Chiba Prefecture. HTS T&F Club has been training based in Matsudo City since its inception, and we are engaged in activities with the city in order to be a team which is loved and supported by the community.

In October of 2021, we concluded a mutual collaboration agreement for regional development and contribution through athletics with Matsudo City, and we will continue our initiative to revitalize the region through collaboration.

On the day of the class, while having fun together, the athletes and coaches taught about 80 elementary school students in Matsudo City the necessary preparations and tips for running fast. Our athletes were inspired by the attitude that children seriously try to run fast.

The Company will continue to contribute to the creation of a better society through communication with local communities and other diverse stakeholders.

*For more information on the agreement with Matsudo City, please see:
