

LOGISTEED Group Holds Expanded Global Business Meeting 2025

LOGISTEED group held the Expanded Global Business Meeting 2025 (EGBM2025) at the headquarters in Chuo-ku Tokyo, Japan on November 13th and 14th. EGBM is a high-level global meeting held annually since 2010, where the top management of the LOGISTEED Group gathers in Japan from around the world to discuss the overall management strategy of the group.

In this year, led by the LOGISTEED International Company, about 300 participants—including executives from domestic and overseas group companies as well as managers from various regions—joined both onsite and online, engaging in lively discussions.

EGBM2025 featured cross-regional presentations on key initiatives toward becoming a "Leading Global 3PL Company," along with an Executive Group Discussion focused on strengthening our global management foundation. In the spirit of "One LOGISTEED," the conference fostered meaningful dialogue to drive greater collaboration across the Group.

Speech by Logan CIBO

Executive Group Discussion

LOGISTEED group aims to become the most preferred global supply chain solution provider and commits to meet expectations by further expanding collaboration domain and realizing innovation.
