Hitachi Transport System establishes a New Cold Warehouse in Nilai, Malaysia

Hitachi Transport System, Ltd. (hereinafter HTS) has recently announced that its Malaysian subsidiary Hitachi Transport System (M) Sdn. Bhd. (hereinafter TSM) is poised to establish a new cold warehouse in Nilai Industrial Area, Malaysia. The new facility will commence its operation in November, 2018.

Nilai Industrial Area is a well-known global business location for many multinational companies headquartered in Japan. It is easily accessible via the North South Expressway and close to the Kuala Lumpur International Airport (hereinafter KLIA).

TSM opens this warehouse as the temperature controlled distribution center (frozen and chilled) to respond to the customer's ever-changing needs and their business expansions in cold chain distribution. This facility provides a security management system, dock shelters, and a private power generator. Furthermore, we will create additional values to customers by introducing our Smart Logistics Technology into the logistics service.

HTS Group has been vastly expanded and managed to cater to our customers' needs worldwide. We aim to become the most preferred solution provider in the global supply chain.
